STUDY IN SARAWAK, MALAYSIA

LAND OF INTRIGUING DIVERSITY

Be a part of the country’s rich multicultural mix. Indulge in a whole new learning experience.

MULTICULTURALISM, A FACT OF LIFE

Having had an interesting past and being a part of the international spice route many hundreds of years ago, Malaysia has turned into a bubbling, bustling melting pot of races living together in peace and harmony. Malays, Chinese, Indians, the indigenous communities of Sarawak and Sabah, and several other ethnic groups, have lived together for generations. All these cultures have influenced each other, creating a truly Malaysian culture.

Everything from its people to its architecture reflect a colourful heritage and an amalgamated culture. Multiculturalism has also made Malaysia a gastronomical paradise and home to hundreds of colourful festivals. It is therefore no wonder that Malaysians love celebrating and socialising.

SARAWAK - THE NATION’S LARGEST AND MOST DIVERSE STATE

Malaysia’s diversity is most profound in Sarawak, in East Malaysia, on the island of Borneo. From pristine underwater marine life and untouched coral reefs to the rich heritage of its indigenous peoples, and from lush rainforests and some of the world’s largest caves to picturesque beach resorts and modern city landscapes, Sarawak is indeed a potpourri of experiences.

Known as Bumi Kenyalang or ‘Land of the Hornbills’, Sarawak is Malaysia’s largest state and home to some 27 ethnic groups making up a population of close to 2 million, each with its own distinct language, culture and lifestyle. The Ibans form the predominant ethnic group, followed by the Chinese, Malays, Bidayuh, Melanau and other native groups. The majority of the population live and work in the State’s cities and towns, but a sizeable percentage still live in longhouses and villages in the interior and engage in agriculture.

Sarawak is renowned for its natural beauty and attractions, which includes the famous Mulu Caves, a UNESCO World Heritage Site. Sarawak’s rainforest is one of the most diverse and protected ecosystems in the world. Its treasure of natural wonders is best appreciated in its many protected national parks where alluring caves, waterfalls, beaches and exotic wildlife can be found.

Sarawak has an abundance of natural resources. Sarawak’s LNG and petroleum have provided the mainstay of the Malaysia’s economy for decades and the state is also one of the world’s largest exporters of tropical hardwood timber and the major contributor to Malaysian exports.

Future growth is being fuelled by an influx of foreign investment and new industries being established within the Sarawak Corridor Of Renewable Energy (SCORE), one of the five regional development corridors being developed throughout the country and aimed at transforming Sarawak into a developed state by the year 2020.

CURTIN WAS RANKED AMONG THE WORLD’S MOST INTERNATIONAL UNIVERSITIES IN 2016.

Times Higher Education 2015/16

MALAYSIA QUICK FACTS

Situated between 2º and 7º to the North of the Equator, Peninsular Malaysia is separated from Sabah and Sarawak by the South China Sea.

To the north of Peninsular Malaysia lies Thailand, and to the south, Singapore.

Sabah and Sarawak are bounded by Indonesia while Sarawak also shares borders with Brunei.

329,847 square kilometres (127,355 sq mi)

Kuala Lumpur

Malay (Bahasa Melayu) is the national language but English is widely spoken. The country’s ethnic groups also converse in the various languages and dialects.

Islam is the official religion of the country, but other religions are widely practised.

Malaysia is a federal constitutional elective monarchy. The head of the country is the Yang Di-Pertuan Agong, commonly referred to as the king. The head of government is the Prime Minister.

The monetary unit of the country is Ringgit Malaysia (RM).
WHY MIRI?

SARAWAK’S LOCATION OF CHOICE
Safe, growing, multicultural.

SARAWAK’S MOST COSMOPOLITAN CITY
Miri is regarded as Sarawak’s most cosmopolitan city with a population of more than 350,000 comprising the entire spectrum of the state’s over 20 ethnic groups, as well as a large expatriate community.

It is often referred to as the ‘Oil Town of Malaysia’ as it is home to the country’s over 100-year-old petroleum industry, as well as Sarawak’s ‘Resort City’ given its scenic seaside location and being the gateway city to the area’s world renowned natural attractions.

CITY ON THE MOVE
Miri’s history, progress and economy have always been tied to oil. Only a humble fishing village about a century ago, it has grown in leaps and bounds since oil was discovered in the area in 1910.

The oil and gas industry remains the largest contributor to the economy of Sarawak but other industries such as forestry and agriculture burgeoned in the years following Sarawak’s independence through the formation of Malaysia in 1963. In recent years, the construction, shipbuilding, retail, financial services, tourism, education and manufacturing sectors have also contributed greatly to the city’s rapid economic growth.

Today, Miri boasts a splendid waterfront, marina, shopping malls, luxury condominiums, two 18-hole golf courses, international class hotels and a modern airport and port.

It has also become an educational and training hub with the presence of Curtin Malaysia and other private and public institutions of higher learning, as well as a key tourism hub for eco-activities, diving and adventure holidays.

As a city on the move, new infrastructure and development projects are planned or underway. They include the Marina ParkCity development incorporating new government offices, financial institutions, hotels, luxury condominiums and commercial properties, The Wharf at the city’s waterfront area incorporating high-rise condominiums, new hotels and commercial properties, expansion of new townships, as well as new roads, public amenities and commercial areas in both inner city and suburban areas.

MIRI QUICK FACTS
Population >350,000
Area 4,707 square kilometres (1,838.71 sq mi)
Time Zone MST (UTC +8)
Climate Equatorial, with fairly uniform temperatures throughout the year. Average daily temperature: 23°C - 32°C

- Sarawak’s second-largest city.
- A major tourism gateway and base to explore Sarawak’s most spectacular natural attractions at Mulu and Niah.
- A popular diving destination due to the abundance of spectacular patch reefs.
- Home of two Malaysia’s premier annual international music festivals, Borneo Jazz and Miri Country Music Fest.
- Direct air links to regional hubs: Kuala Lumpur, Singapore, Johor Bahru, Kuching and Kota Kinabalu.
WHY CURTIN MALAYSIA?

Learn through practical experience. Become part of a multicultural environment. Prepare to succeed in a competitive professional market.

AN INTEGRAL PART OF CURTIN
We are proud to be the largest international campus of Curtin University which is ranked in the top two percent worldwide by the Academic Ranking of World Universities.

Curtin Malaysia was the first foreign university campus to be established in East Malaysia (in 1999) and is currently among the top-rated tertiary institutions in Malaysia under the country’s SETARA and D-SETARA rating systems, as well as one of a select few self-accrediting universities in the country.

THE PERFECT LEARNING ENVIRONMENT
We are located in a region of Sarawak famed for its natural wonders, rich cultural heritage and biodiversity, oil and gas industry, and emerging processing and manufacturing industries.

With over 4,000 students from more than 45 countries and staff from some 15 nations, we offer a truly international and cross-cultural learning environment in a unique Malaysian setting. Inevitably, this adds a rich and valuable dimension to the campus atmosphere and also prepares our graduates to live and work in an increasingly global environment.

INDUSTRY-RELEVANT COURSES WITH INTERNATIONAL RECOGNITION
We offer a wide range of Curtin undergraduate and postgraduate courses in business and humanities, engineering and science, in addition to courses at pre-university level that feed directly into the undergraduate programs. As the courses are identical in structure to those offered at our mother campus in Perth, students can transfer between campuses without disruption to their studies.

In addition to accreditation by professional bodies in Australia, Malaysia and other countries, the courses are endorsed by the Malaysian Ministry of Higher Education. They are also widely recognised for their practical and applied nature, which equip our graduates with essential skills through exposure to industry and business. So is our research which focuses on solving real world problems.

This combination enables our graduates to be effective in the workplace immediately upon graduation. As part of this approach, we have always fostered successful partnerships with industry, business and government to enhance the quality of our scholarship, teaching and research.

MODERN CAMPUS FACILITIES
Our campus is one of the most modern university campuses in Southeast Asia, where stylish architectural buildings complement state-of-the-art facilities and equipment. Situated on a 1,000 acre site in Desa Senadin, a northern suburb of Miri, it features beautifully landscaped gardens, man-made lakes and surrounding wetlands teeming with indigenous and migratory birds, making for a most unique learning environment.
TRANSFER OPPORTUNITIES

Explore exciting opportunities to complete a part of your degree at another Curtin campus.

ADD A GLOBAL PERSPECTIVE TO YOUR DEGREE

Curtin’s transfer pathways give you the flexibility to study part of your degree at another Curtin campus. Studying abroad will broaden your horizons and add a global perspective to your degree. With all the campuses following the same academic calendar, and sharing the same course structure and curriculum for each programme, transferring your studies between campuses is easy and seamless.

GIVING YOU MORE CHOICES

Depending on your course at Curtin Malaysia, you can choose to transfer to a Curtin campus in Singapore or Perth for one, two or three years of your course. You can also opt to complete just one semester in either Singapore or Australia.

Curtin Singapore offers undergraduate and postgraduate business, health sciences and humanities courses in the heart of one of the world’s most cosmopolitan cities.

At the main campus (Curtin Perth), you can choose from undergraduate and postgraduate business, science, communications and engineering courses.

Consider some of the benefits of living and studying abroad:

- Learning a different language
- Immersing yourself in a new culture
- Making new friends
- Building your resume
- Improving your English
- Developing new perspectives
Join over 4,000 students from around the world studying in a unique international and cross-cultural learning environment.

STUDENT ACCOMMODATION

Safe, convenient and affordable, close to area shops, services and public amenities.

ACCOMMODATIONS TO SUIT YOUR NEEDS

Need a place to stay? Curtin Malaysia can help you find accommodation either on or off our campus. Safe, comfortable and modern accommodation is available to suit a range of budgets.

Curtin Malaysia currently has four student accommodation options: Lakeside Apartments I & II (within the campus), Curtin Village, Curtin Villa and Curtin Water I & II (in the immediate neighbourhood).

ON-CAMPUS ACCOMMODATION

Our on-campus accommodation is a popular way to stay close to the campus and reap all the benefits. Due to high demand, we recommend you apply for student housing as soon as you apply to study at Curtin Malaysia.

WANT MORE OPTIONS?

Living off-campus may be the answer. A range of accommodation options are available in the suburbs surrounding the Curtin Malaysia campus. You’ll benefit from close proximity to public amenities and shopping, with rental prices varying depending on the type and location of the accommodation you choose.

For more information about student housing, including photographs and rental fees, visit housing-recreation.curtin.edu.my/housing-services/

24 SECURITY HOUR SURVEILLANCE

IMPORTANT NOTES TO BE KEPT

Note the following rules and regulations.
UNIVERSITY LIFE, SERVICES AND SUPPORT

With so much to see, do and experience, university life can be an exciting and fulfilling experience.

To ensure it’s not a daunting one, Curtin Malaysia offers a range of services and support programmes to make your time at university enjoyable, inclusive and productive.

ON CAMPUS

You can find almost everything you need on our campus, including a choice of food outlets, ATM machines, campus bookshop, convenience shop, health and first aid centre, and a moussallah.

You will also have access to our campus recreation and sporting facilities which include an indoor basketball court, badminton courts, gym facilities, football field, rugby field, cricket batting pitch, outdoor basketball court, tennis courts, and a Multi Purpose Hall for volleyball and indoor Futsal/floorball games. For joggers, a custom-made jogging track lines the campus’ picturesque lakes.

The city’s major commercial areas and popular recreation spots are accessible via services from the neighbourhood bus stops or via hired taxi services.

SHUTTLE SERVICE

Free shuttle buses operate between the campus and the Curtin Village, Curtin Villa and Curtin Water student housing areas where students can connect to the public bus service.

UNIVERSITY LIFE

The Department of University Life assists new students in managing the challenges of university life through orientation and provide existing students the opportunity for self-growth in areas related to entrepreneurship, leadership and professional development.

Orientation

A fun and interesting orientation programme is conducted for new students prior to the start of each semester. Students take part in a range of activities and workshops that allow them to meet other students, and familiarise themselves with the support and academic services, and facilities on campus. International students participate in an International Prep Programme to familiarise them with local culture and customs.

Leadership & Entrepreneurship Centre

Our Leadership & Entrepreneurship Centre is committed to developing students and engaging communities. It allows students to participate in a range of leadership and entrepreneurship programmes, be a part of the prestigious John Curtin Leadership Academy (JCLA), engage in community projects, secure scholarships to attend leadership conferences overseas and venture into business.

Careers and Alumni

Career and Alumni Services takes students who are ready to step out a step further, offering opportunities for internship and employment. Students can participate in professional development workshops, seminars and the annual Curtin Career Fair organised by the unit to find out what it takes to be on top of the hiring list.

STUDENT SERVICES

Our Student Services Office offers advice and assistance to students on matters such as application status, enrolment, identification cards, examinations, results and appeals, academic status, scholarships and loans, student passes and visas (Malaysian students only).

STUDENT COUNCIL

The Student Council is appointed through an election process. It represents the student body at meetings within the University to provide a student perspective and voice student concerns in the University decision-making process. It organises a variety of social, cultural, sporting and recreational activities to help students adjust to university life.

STUDENT CLUBS AND ACTIVITIES

Our student clubs cater to a wide range of interests, including academic, social, sports, spiritual and recreation. Currently there are over 30 student clubs and voluntary student organisations on campus. There are also student-run organisations such as Curtin Volunteers! and Curtin E-Fact, that give students, staff and the community an opportunity to be jointly involved in various community projects and leadership and entrepreneurship initiatives.

LANGUAGE STUDIES AND HUMANITIES

Our Faculty of Humanities’ Department of Culture and Language Studies provides English Language programmes which enable students to meet the entry requirements of the University Degree Foundation Programmes. The Department also coordinates the running of Ministry of Education (MOE) compulsory units.

GET ONLINE

Students can get the latest information about their degrees through our online service, OASIS (Online Access to Student Information Services). Via OASIS, they will receive official communications from the University and can access their free personal e-mail account and web page.

INFORMATION TECHNOLOGY

We place great emphasis on utilising modern technology to support teaching, learning and research. The campus currently has 16 computer laboratories with over 400 PCs for student use, in addition to terminals located in the library that provide access to the library’s online databases. We also provide a reliable network connection for access to the resources of the main campus in Perth.

THE LIBRARY

The Library supports students and staff in teaching, learning and research by continually expanding and maintaining the breadth and depth of its titles and other information resources. It also provides assistance and instruction in using the resources effectively by conducting training in gathering, evaluating and managing information.

Students also have access to resources at the library at the main campus through network facilities, as well as a wide range of academic publications and electronic databases.
UNIVERSITY LIFE,
SERVICES AND SUPPORT

OFFICE OF STUDENT AFFAIRS
The Office of Student Affairs is a one-stop centre for students on and off campus to foster personal growth, academic excellence and cross-cultural understanding. It provides personalised care for all and welcomes any enquiries and consultation requests.

Complaint and Conflict Resolution
At Curtin Malaysia, any complaint, concern and incident is taken seriously to ensure that we uphold Curtin’s values and promote an ethical community. All complaints related to services of Curtin Malaysia, environment, policies or procedures, and in any areas that need or require improvement; can be lodged for investigation and follow up. Parties involved in a complaint will be dealt with respect and fairness.

Counselling & Disability
Our University Counselling and Disability services are free and confidential for all students. In-house counsellors and psychologists provide support and consultation on issues such as academics, emotional difficulties, health related problems, and other matters for well-being enhancement. Alternative arrangement is provided for students with temporary and permanent disability on a case by case basis.

Health Centre
Students can walk in for consultation and medical assistance at our Health Centre where qualified medical personnel provide assessment for various health-related issues as well as referrals to external health care specialists.

INTERNATIONAL DIVISION

Admission, Student Passes and Visas
Our International Division is the focal point on campus for international students, offering an extensive range of support services to assist international students to adapt quickly to university life, and living in a new country. All prospective international students’ applications are processed by the Admissions Unit and staff will assist students in their student pass and visa applications/curtailment and renewals, as well as with consular matters. The Division also coordinates campus transfers.

Group Hospitalisation and Surgical Insurance
It is mandatory for all international students to be insured under the University’s insurance plan as stipulated by the Malaysian Ministry of Higher Education. The insurance coverage provides protection for hospitalisation and surgical, out-patient clinical treatment, group term life, and personal accident with accidental death and disablement.

Airport Reception Service
The International Division provides airport reception services for new students who are commencing their first semester at Curtin Malaysia. University representatives will meet students at airport and transfer students to their confirmed campus accommodation.
Curtin Malaysia’s Foundation courses are intensive, focused courses which guarantee entry to the University upon successful completion.

CULTIVATING INTEGRATIVE THINKING
Our Foundation programmes challenge students to become active learners who can acquire, interpret, communicate and apply knowledge within and across disciplines to cultivate the integrative thinking required in a complex and rapidly changing world.

PROGRESSION TO UNDERGRADUATE STUDIES
Our Foundation courses are dedicated to developing and preparing students for undergraduate studies. They comprise the following one-year (two semester) courses:
- Foundation Studies - Art Stream
- Foundation Studies - Commerce Stream
- Foundation Studies - Engineering and Science Stream

The courses provide a solid foundation for students to adapt to university education more confidently, both in terms of level and style of education.

ACADEMIC SUPPORT
Students are provided academic support via advisory support programmes, additional teaching and learning workshops, tutorials and mentorship with lecturers. Academic support enhances student development and leadership, and our academics are highly skilled and experienced teachers and scholars who encourage full student participation.

DISTINCT ADVANTAGES
Students in the Foundation programmes can look forward to:
- Small student-lecturer ratio in classrooms.
- Modern, diversified teaching methods: workshops, introduction to research methods, modern laboratory projects, oral and multimedia presentations.
- Highly advanced technological support: library, well-equipped laboratories, ample supplies of learning materials, Internet and online learning resource access.

courses.curtin.edu.my/courses-and-study/foundation-studies/

Our business graduates land diverse and interesting careers all over the world. Whatever career path you decide to take, a Curtin business degree will really open doors for you.

A LEADING PROVIDER OF BUSINESS EDUCATION
The Curtin Malaysia Faculty of Business fully supports the University’s vision to be a recognised international leader in education and research, and its commitment to engage communities and transform lives through leadership, innovation and excellence in teaching and research.

It further supports Curtin’s commitment towards industry-connected innovative teaching and research to develop internationally focused graduates committed to excellence.

It achieves this by engaging actively at all levels across all key industry sectors; developing a diverse international perspective through its curriculum and research activities; focusing on high quality, strategic research that produces innovative solutions to real problems, and providing an environment that encourages staff and student learning and innovation.

QUALITY TEACHING AND LEARNING
The quality of its teaching and learning environment, as well as the reputation of its academics and the application of up-to-date methodologies and technologies, allow students to gain an exceptional learning experience.

INDUSTRY LINKS
The Faculty of Business was founded on strong partnerships with industry, including multinational corporations in and around the region, and continues to develop new relationships with industry, financial institutions and government bodies. Support is provided to students to go on internship.

INTERNATIONALLY RECOGNISED QUALIFICATIONS
The Curtin Malaysia Faculty of Business is proud to be counted among the world’s elite business institutions through its accreditation by the Association to Advance Collegiate Schools of Business (AACSB).

A GLOBAL NETWORK
Curtin Business School’s thriving alumni network is made up of 72,000 graduates from more than 70 different countries, maximising your network opportunities.

GET THE BEST START
We have successfully prepared students for undergraduate studies since 1999. Each year almost 100% of students in the programmes are offered places in our undergraduate courses in Business, Mass Communication, Engineering, Science and Technology.
For tomorrow’s discoverers and innovators.

COMMITTED TO INNOVATION AND EXCELLENCE
Our Faculty of Engineering and Science is fully committed to the enhancement of teaching and research and the pursuit of excellence and innovative applications of engineering technology as a contribution to the advancement of scientific knowledge, understanding and community relevance.

UNIQUE TEACHING AND LEARNING EXPERIENCES
At the Faculty of Engineering and Science, students study engineering or science degree programmes offering multicultural teaching and learning experiences.

FULLY ACCREDITED PROGRAMMES
The Faculty of Engineering and Science offers four-year engineering programmes with common first year studies in major disciplines such as:
- Chemical Engineering
- Civil and Construction Engineering
- Electrical and Electronic Engineering
- Environmental Engineering
- Mechanical Engineering
- Petroleum Engineering

These programmes are fully accredited by the Board of Engineers Malaysia and Engineers Australia. Its Chemical Engineering programme is also accredited by the Institution of Chemical Engineers, UK. With such internationally accredited and recognised degrees, graduates of the Faculty of Engineering and Science may be in demand by national and multinational companies.

Furthermore, through the Washington Accord, to which both Australia and Malaysia are signatories, Curtin’s engineering qualifications are recognised by all the participating nations.

TECHNOLOGY OF THE FUTURE
For those who are interested in being technologists in the area of computer systems and networking, the Faculty of Engineering and Science offers a three-year Bachelor of Technology programme. Within the programme, seven certification units from the internationally-renowned CISCO Networking Academy are included. These certifications lead to worldwide professional accreditation as network associates, security specialists and wireless LAN specialists.

GEARED FOR INDUSTRY
The Faculty of Engineering and Science’s three-year Bachelor of Science in Applied Geology programme is tailored to support the future needs of industries in the region, particularly the oil and gas industry. Its uniqueness lies in the Petroleum Geology stream in the third year. A strong linkage with the oil and gas industry in Sarawak is the strength of this programme.

DEVELOP SPECIALISED KNOWLEDGE
The Faculty of Engineering and Science’s postgraduate programmes (Master and PhD) by research give students opportunities to develop specialised knowledge within their chosen fields through involvement in high-profile staff research supported by the government and/or industries.

engsci.curtin.edu.my

For creative minds.

A Curtin humanities degree provides you with the knowledge and experience that you need to transform your ideas into valuable skills.

Applied, creative and relevant to contemporary society and industry, our degrees are designed to produce graduates who stand out from the crowd and are ready to make their impact on the world.

We embrace study that investigates and celebrates digital futures and that understands the crucial relevance of the arts and creative industries. And, we are dedicated to flexibility, because we know that everyone has different needs.

BUILDING THE RIGHT FOUNDATION
Our Foundation Studies – Arts Stream programme introduces the fundamentals of Mass Communication and builds the foundation for new students to enter undergraduate study in the field. Students are encouraged to learn, experiment and experience. Those who obtain satisfactory results are also eligible for admission to other undergraduate courses offered at both Curtin Malaysia and other Curtin campuses.

MEETING YOUR COMMUNICATIONS CAREER GOALS
Our Bachelor of Arts (Mass Communication) degree lets you tailor your studies to suit your communications career goals – a valuable advantage for working in this diverse industry. The course is comprehensive, forward-thinking and practical, giving you the flexibility to follow your own interests and create a unique, tailored program.

It offers the chance to develop skills and knowledge in two or more related fields of study at the intersection of media, business, design and new communications technologies. It also offers contextual study of the history, theory, ethics and criticism of the various practices, institutions and discourses in media, communication and information. Furthermore, foundation skills and knowledge for work in the corporate media and information field is provided with considerable breadth of expertise.

Helping you expand your horizons
Our humanities postgraduate degrees are purpose-built to enhance your professional skills and knowledge. The courses can be applied to complement your previous experience and enhance your current qualifications.

IMPROVING LANGUAGE PROFICIENCY
The Faculty of Humanities’ Department of Culture and Language Studies offers an Intensive English Programme (IEP) designed specially to improve students’ academic English language proficiency. It specifically caters for potential tertiary education students who lack the English language entry requirements to enter a Foundation, Diploma, or Degree course.

Besides the IEP, the Department offers a 6 hours per week Pre-University English unit for one semester. It is aimed at improving students’ English language proficiency to the standard required for undergraduate and postgraduate studies.

GIVING YOU THE SUPPORT YOU NEED
Students are provided academic support via advisory support programmes, additional Learning and Teaching workshops, tutorials and mentorship with lecturers. Academic support enhances student development and leadership, and our academics are highly skilled and experienced teachers and scholars who encourage full student participation.

</table>

The above information is correct at time of publishing but may be subject to change. The table only shows the minimum English requirement for the respective programmes. Applicants must also meet the relevant academic qualifications for the respective programmes.

INTENSIVE ENGLISH PROGRAMME

The Intensive English Programme (IEP) is designed to improve students’ academic English language proficiency. It specifically caters for potential tertiary education students who lack the English language entry requirements to enter a Foundation or Degree course.

A Placement Test is administered to determine students’ command of English. Based on the test results, students are placed at the appropriate IEP level. The minimum English requirement to do the Intensive English Programme is IELTS band 3.0 or IEP Placement Test band 3.0. There are four levels in the IEP: Level I, II, III and IV, with four intakes/terms a year. Each term comprises 9 weeks and the course consists of 20 contact hours per week.

At the end of each nine-week term, students in Level I, II and III sit for an internal test, and based on their scores, they will be streamed to the appropriate levels. Students might skip a level or two if they meet the entry band requirement for each level respectively as illustrated in the diagram below. The exit test for Level IV is the Cambridge IELTS.

Besides the IEP, the Department of Language Studies and Humanities offers a 6-hour per week Pre-University English unit for one semester. It aims to improve the students’ English language proficiency to the standard required for undergraduate or postgraduate studies. In addition, special academic learning needs are supported through the academic modules offered by the Office of The Dean, Learning and Teaching. When necessary, students are encouraged to join these free 2-hour seminars and workshops which cover topics such as Plagiarism, Academic English, Academic Listening and Note Taking and Sentence Mechanics.

#1 Applicants with IELTS 5.0 (no individual band below 5.0) are required to take the Academic English concurrently with the Foundation program.
#2 Applicants with TOEFL 71 or higher (or equivalent) are required to take the Academic English concurrently with the Foundation program.
#3 Applicants with SPM English C are required to take the Academic English concurrently with the Foundation program.
#4 Applicants with GCE ‘A’ Level C are required to take the Academic English concurrently with the Foundation program.
#5 Applicants with GCE ‘O’ Level C are required to take the Academic English concurrently with the Foundation program.
#6 Postgraduate by research may be deemed to meet Curtin’s English language requirements based on the completion of a bachelor degree course in which English is the sole language of instruction. This will be assessed on a case-by-case basis.
POSTGRADUATE
Graduate certificate
As a short vocationally-orientated programme, graduate certificate courses are designed to develop skills in a specialised area of study (one semester).
Graduate diploma
The graduate diploma is a specialised, vocationally-orientated award usually completed in two semesters. Entry is usually based on completion of a bachelor’s degree or diploma (one year).
Graduate entry master
Graduate entry master courses provide a fast-track learning experience for students who already hold a bachelor’s degree (three semesters to two years).
Master degree
A faculty may accept you into a master’s degree provided you hold appropriate qualifications as decided by the head of faculty (three semesters to two years).
Doctor of Philosophy
As a doctoral research degree candidate, you will uncover new knowledge either by the discovery of new facts, the formulation of theories or the innovative reinterpretation of known data and established ideas. Your research will use an in-depth understanding of theories and concepts to develop practical solutions for real-world problems.
HIGHER DEGREE BY RESEARCH
A higher degree by research differs from other postgraduate degrees in that at least two-thirds of the study programme must involve research. Although some coursework units may be required, the main part of your work will be in the form of a thesis written under the guidance of a supervisor and associate supervisor(s).
Master of Philosophy
The Master of Philosophy (MPhil) aims to expand knowledge beyond the undergraduate honours or postgraduate diploma level, culminating in a research thesis. Upon completion of a master by research degree, you may apply to be considered for entry into a Doctor of Philosophy (PhD) programme.
Doctor of Philosophy
Doctor of Philosophy:*

STUDY AREAS

PRE-UNIVERSITY
Foundation courses
Foundation courses are intensive, focused one-year courses which prepare students for undergraduate study and guarantee entry to the university upon successful completion.
UNDERGRADUATE
Bachelor degrees
A bachelor degree is the first degree earned at university. At Curtin Malaysia, it is awarded for completing an undergraduate course of study (three to four years).
Honours programme (Engineering) Study consists of coursework at an advanced level and research or project work.
HIGHER DEGREE BY RESEARCH
A higher degree by research differs from other postgraduate degrees in that at least two-thirds of the study programme must involve research. Although some coursework units may be required, the main part of your work will be in the form of a thesis written under the guidance of a supervisor and associate supervisor(s).
Master of Philosophy
The Master of Philosophy (MPhil) aims to expand knowledge beyond the undergraduate honours or postgraduate diploma level, culminating in a research thesis. Upon completion of a master by research degree, you may apply to be considered for entry into a Doctor of Philosophy (PhD) programme.
Doctor of Philosophy
As a doctoral research degree candidate, you will uncover new knowledge either by the discovery of new facts, the formulation of theories or the innovative reinterpretation of known data and established ideas. Your research will use an in-depth understanding of theories and concepts to develop practical solutions for real-world problems.

SCHOLARSHIPS

A scholarship at Curtin Malaysia can help make your study and career dreams a reality.

We strive to help high achieving students pursue their ambition and gain a tertiary education.

There are numbers of domestic and international student scholarships provided by Curtin, Malaysian Government and Industrial Sectors, which enable students from all backgrounds to realise their potential.

FEE INFORMATION

Though the tuition fees listed in the following pages were correct at time of printing and valid for 2017, they are indicative and subject to change. For a more accurate indication of fees, go to fees.curtin.edu.my

The fees are applicable to all new students enrolling for the first time in a particular programme, and current students commencing new programmes (e.g. from Foundation to Degree) in 2017. The fees will continue to be applicable until they complete their programmes.

All the fees quoted do not include 6% Goods & Services Tax (GST).

FEE PAYMENT

Payment can be done by either cash, cheque, credit card, bank draft, telegraphic transfer or JOMPAY. For further details, please go to fees.curtin.edu.my

COURSE INFORMATION

The course information provided here is subject to change and Curtin Malaysia reserves the right to change or alter any unit of study, withdraw any unit of study or programme it offers, and/or try to vary arrangement for any programme.

It will be undertaken concurrently with their Foundation units.

FOUNDATION STUDIES

FOUNDATION STUDIES - COMMERCE STREAM (R/010/3/0343)
This course is dedicated to preparing students for undergraduate study in Commerce. Students learn Effective Communication Skills, Introduction to Business Studies, Business Information Technology, Business Statistics, Writing and Research Skills, and the fundamentals of Economics, Accounting and Business Mathematics.

FOUNDATION STUDIES - ARTS STREAM (N/010/3/0426)
This course introduces new students to the fundamentals Mass Communication studies. Students will learn the foundation of film and television, journalism, communication, advertising, and IT with these following units in Media and Communication, Journalism, Information Technology, 20th Century World History, Travel Writing & Photography, Screen Production and Visual Culture.

FOUNDATION STUDIES - ENGINEERING AND SCIENCE STREAM (R/010/3/0344)
This course prepares students for undergraduate study in Engineering and Science, Computing and Information Technology. In addition to several units that are common to all foundation courses, students study units in Engineering Mathematics, Physics and Chemistry and Programming in C++.

ADMISSION REQUIREMENTS

Applicants must meet Curtin’s minimum level of entry and demonstrate competence in English by meeting its English language requirement. Credits towards a Curtin qualification may be granted to applicants with qualifications from other accredited educational institutions.

PATHWAYS TO FURTHER STUDY AT CURTIN MALAYSIA
Students who pass all subjects in the respective Foundation courses can enter degree programmes such as:
- Bachelor of Business Administration
- Bachelor of Arts (Mass Communication)
- Bachelor of Commerce (Accounting)
- Bachelor of Commerce (Finance)
- Bachelor of Engineering (Chemical, Civil and Construction, Computer Systems, Electrical & Electronic, Environmental, Mechanical, Petroleum)
- Bachelor of Technology (Computer Systems & Networking)
- Bachelor of Science (Applied Geology)

PATHWAYS TO FURTHER STUDY AT CURTIN PERTH
Students who obtain satisfactory results are eligible for admission to a range of undergraduate courses offered at Curtin Perth.

UNDERGRADUATE STUDIES

UNDERGRADUATE DEGREES
Courses leading to a first qualification, such as a bachelor’s degree award, are referred to as undergraduate courses. Bachelor’s degrees are usually three years (Business, Science and Technology programmes) or four years (Bachelor of Engineering Honours programmes).

CREDIT FOR RECOGNISED LEARNING (CRL)
Curtin recognises students’ relevant prior studies or work experience, allowing some students to finish their degrees in a shorter period of time. CRL (or Advanced Standing) allows students to take advantage of - and be rewarded for - their previous studies.

ADMISSION
For admission to Curtin Malaysia, applicants must satisfy minimum academic entry as well as English competency requirements. Entry is competitive and levels higher than the minimum may be required for admission to some courses.

Students who have successfully completed and passed the Foundation Studies - Commerce Stream, Foundation Studies - Arts Stream and Foundation Studies - Engineering and Science Stream courses are directly admitted to the respective Bachelor degree courses.

Other qualifications that are also considered for undergraduate degree admission are reflected in the table on the following page.

As all courses are taught in English, applicants will need to meet Curtin’s language requirement. Any one of the tests in the following table will be accepted as satisfying Curtin’s language requirement, however, some courses may require a higher score for English. Please refer to the individual course listings on the following pages for more information.

UNDERGRADUATE ENTRY REQUIREMENTS

Country | Qualification and Minimum Entry Requirements for International Students
--- | ---
Bangladesh | Completion of Bangladesh Higher Secondary Certificate (HSC) with a minimum Grade Point average of 4.0 (70-79%) - separate evidence or English competency is required.

Brunei | Three passes (Grade C or better) in the Brunei Cambridge General Certificate of Education Ordinary Level Exam (GCE) and two passes (minimum of 5 points) in the Brunei Cambridge General Certificate of Education Advanced Level Exam (GCE). Separate evidence of English competency is required.

China | Successful completion of the National College Entrance Examination (NCEE) (also known as Gao Kao) and obtain an aggregate of the required individual subjects which is equivalent to 67% of the overall maximum score; or a grade of 322/480-602/860, 503/750, 543/810 or 603/900 AND English competency OR completion of one year of a bachelor degree at a recognised university and English competency.

Hong Kong | Completion of the Hong Kong Diploma of Secondary Education (HKDSE) with a point score of 15 from the best five subjects with at least a grade of 4 in English language or with separate evidence of English.

India | Completion of All India Secondary School Certificate awarded by Central Board of Secondary Education with an average of 60% in four subjects, one of which must be English (60% or better) or with separate evidence of competency in English or GCE O Level - credit in 5 relevant academic subjects including English or 5 Credits and English Competence.

Indonesia | Successful completion of the National University Entrance Examination (CELET) (also known as Ujian Nasional SMA/MA) and separate evidence of English competency required.

Japan | Successful completion of first year of a bachelor degree at a recognised institution - separate evidence of English competency is required.

Kenya | Completion of the Kenya Certificate of Education (KCE) with a pass with credit (grade B or better) in three subjects and two passes (min of one C and one D grade) in the Kenya Advanced Certificate of Education (KACE) as managed by the Kenya National Examinations Council - separate evidence of English competency is required.

Malaysia | Successful completion of the Malaysian Unified Examination Certificate (UEC) (Senior Middle Level) with at least 9 points obtained from two or three Advanced Level subjects; OR two Advanced level subjects and a maximum of two Advanced Subsidiary Levels (AS) are required and fulfill English Entry Requirement; points calculated as follows: Grades awarded from 2010 onwards: A*=6, A=5, B=4, C=3, D=2, E=1. You must have Grade C or better in GCE O-Level/GCSE English, English Literature or English Language, or provide separate evidence of English competency.

Myanmar | Successful completion of two years full-time study of a three years Bachelor degree (in arts, economics, commerce and management, foreign languages, and science (including computing science) OR 180 credit points of English Language OR Successful completion of the Charles Telfair Institute, Foundation Studies Program - separate evidence of English is not required.

Nepal | Completion of one year full-time study of a four years Bachelor, or two years full-time study of a three years Bachelor from a recognized higher education institution, separate evidence of English competency is required.

Oman | Successful completion of one year of a degree at a recognised institution - separate evidence of English competency is required.

Pakistan | Completion of the Pakistan Higher Secondary Certificate/Intermediate Certificate with at least an average of 75% of the total marks (770 out of 1100), separate English competency is required. This qualification does not satisfy subject prerequisites.

Russia | Successful completion of the first year of a four years full-time Bachelor at a State institution or fully accredited private institution - separate evidence of English competency is required.

Saudi Arabia | Completion of High School Diploma (HS) with a score of 300 (75%) in the National University Entrance Examination (College Scholastic Ability Test) (CSAT) - separate evidence of English competency is required.

Sierra Leone | Successful completion of the Sierra Leone Advanced Level Certificate (SALC) or the Sierra Leone General Certificate of Education (SLGCE), or the Leaving Certificate of Secondary Education (LCSE) of the Cambridge School Certificate (CSC) or the General Certificate of Education (GCE) at Ordinary Level with a grade of C or better in English Language or separate evidence of English competency is required.

South Korea | Completion of the South Korean General Certificate of Education (GCE) with grade C or O Level English, English Literature or with separate evidence of English competency OR Three ‘Ordinary’ level passes with minimum grade of Credit and three ‘Advanced’ level passes with minimum grade equal to 6 points in the South Korean General Certificate of Education (GCE) (Excluding General Paper) with credit in ‘O’ Level English or with separate evidence of English competency.

## POSTGRADUATE STUDIES (BY COURSEWORK)

### POSTGRADUATE BY COURSEWORK DEGREES

Graduate certificate courses are designed to develop skills in a specialised area that may or may not be directly related to that of your undergraduate degree. Some graduate certificates are specifically designed for non-graduates and allow you to progress towards further postgraduate study. All of the programmes are career oriented, and usually take one trimester full-time or equivalent part-time.

Graduate diplomas are specialised, vocationally-oriented awards. Entry is normally based on completion of a bachelor degree, although this can be in an unrelated field if you have work experience in the field of study.

Graduate diplomas introduce graduates from disciplines outside of their chosen higher degree to postgraduate studies. Less academically qualified applicants may still apply. Graduate diplomas are usually completed in two trimester full-time or equivalent part-time.

A faculty may accept you into a master degree provided that you hold appropriate qualifications as decided by the head of faculty. Mature-age students who do not have formal entry qualifications may still qualify for admission to the master programme.

A master degree is usually completed in one year on a trimester or semester basis, unless Credit for Recognised Learning (CRL) is awarded as a result of other relevant studies. Some master degrees also have a work experience component.

### MINIMUM ENGLISH LANGUAGE ENTRY REQUIREMENTS

Results for IELTS and TOEFL are valid for two years.

<table>
<thead>
<tr>
<th>English Language Test</th>
<th>Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>IELTS - Writing and Speaking</td>
<td>6.0*</td>
</tr>
<tr>
<td>IELTS - Reading and Listening</td>
<td>6.0*</td>
</tr>
<tr>
<td>IELTS - Overall Band Score</td>
<td>6.5*</td>
</tr>
<tr>
<td>Test of English as a Foreign Language (TOEFL)</td>
<td>79 (band minimum W-23, L-13, R-13, S-18)</td>
</tr>
</tbody>
</table>

* Different programmes require different IELTS results. Each application is assessed on a case-by-case basis.

### ADMISSION

For admission into Curtin Malaysia, you must provide evidence of completion of a degree from a recognised university and provide evidence of English language proficiency. In addition, you may need to meet specific course prerequisites. As all courses at Curtin Malaysia are taught in English, you will need to meet Curtin’s English Language requirements based on completion of a bachelor degree course in which English was the language of instruction. This will be assessed on a case-by-case basis.

Any one of the tests in the table below can also be accepted as satisfying Curtin’s English language requirement.

### MQA - Malaysian Qualifications Agency

POSTGRADUATE STUDIES BY RESEARCH

MASTER OF PHILOSOPHY
(also called Master by Research)

A Master of Philosophy degree is awarded for a thesis or a combination of a thesis and coursework in which the coursework component does not exceed one third of the degree or master programme. The award indicates that the thesis, in the opinion of the examiners, constitutes a substantial original contribution to the knowledge or understanding of a field of study and demonstrates the capacity of the candidate to conceive, design and carry to completion independent research.

A candidate may enrol in a degree or master programme either full-time or part-time. Enrolment is usually for a minimum of one year and a maximum of two years of equivalent full-time study.

DOCTOR OF PHILOSOPHY

A doctoral degree is awarded for a thesis or a combination of a thesis and coursework in which the coursework component does not exceed one third of the doctoral degree programme. The award indicates that the thesis, in the opinion of the examiners, constitutes a substantial original contribution to the knowledge or understanding of a field of study and demonstrates the capacity of the candidate to conceive, design and carry to completion independent research. The doctoral candidate should uncover new knowledge either by the discovery of new facts, the formation of theories, or the innovative re-interpretation of known data and established ideas.

A candidate may enrol in a Doctoral degree either full-time or part-time. Enrolment in the degree is usually for a minimum of two years and a maximum of four years of equivalent full-time study.

RESEARCH AREAS

Research students join the vibrant research communities at Curtin Malaysia based on their chosen research area. Strategic research focus and research areas are structured around the following areas:

- Faculty of Engineering and Science
  Applied Geology, Chemical Engineering, Civil & Construction Engineering, Electrical and Computer Engineering, Mechanical Engineering, Petroleum Engineering
- Faculty of Business and Humanities
  Accounting, Corporate Social Responsibility, Corporate Governance, Management, Marketing, Economics, Finance, Banking, Education
- Curtin Malaysia Research Institute
  Energy and biotechnology, emphasising multi-disciplinary and collaborative research to develop holistic solutions encompassing scientific, technological, social and economic aspects. Collaborative research to develop holistic solutions encompassing scientific, technological, social and economic aspects. Collaborative research to develop holistic solutions encompassing scientific, technological, social and economic aspects.

STUDY SUPPORT

Master of Philosophy or Doctor of Philosophy candidates are eligible for financial support for consumables and fieldwork-related spending. They will also have the opportunity to attend specialised research training seminars, professional training workshops, and national or international conferences supported by the University.

In addition, they will have full access to online resources (including international journals, conference proceedings, e-books, etc.) provided by the parent campus in Perth.
APPLICATION PROCESS

The following information is relevant to students applying directly to the University. Students who use the services of Curtin Malaysia registered agents should lodge their applications via the agents and contact them for any queries throughout the admission process.

HOW TO APPLY

1. Complete the Application Form in the following pages or apply online by clicking the ‘Apply Now’ button on our website at www.curtin.edu.my.

2. Application Forms must be supported by certified copies of relevant documents.

3. Successful applicants will receive an Offer Pack containing a Letter of Offer, Acceptance of Offer Form, Enrolment Form and Student Pass Application documents. To accept the offer, complete and sign the forms and return them with fee payment by the due date stated in the offer letter.

4. The Student Pass Application pack includes (international students only):
   - Student Pass Application Form Im. 14 Ptn. 1/93
   - Visa Application Form Im. 38 Ptn. 1/93
   - Foreign Student Particulars
   - English translation of the above forms
   - Student Pass Application Policy and Procedures
   - Curtin Medical Form

5. The student pass application process usually takes one month. Upon approval, a Visa Approval Letter (VAL) from the Sarawak Immigration Department will be couriered to you.

   You are then required to present the VAL along with your passport, Letter of Offer and Visa Approval Letter at the airport immigration counters.

   If you have requested the Airport Reception Service, you will be assisted to open a bank account and make an appointment for a medical check-up.

   You are required to report to the Curtin Malaysia International Division Office during office hours, and will be assisted to open a bank account and make an appointment for a medical check-up.

BEFORE LEAVING HOME

1. It is advisable to book an air ticket immediately after accepting the offer as airline seats are in high demand before the start of each semester.

2. Wherever possible, arrange your itinerary to transit at Kuala Lumpur International Airport (KLIA), which is the main entry point to Malaysia, then travel to Miri within the same day.

3. Make arrangements for accommodation. To book campus accommodation, log on to housing-recreation.curtin.edu.my/housing-services

4. To request the Airport Reception Service (ARS) on arrival, you will need to produce your passport, Letter of Offer and Visa Approval Letter at the airport immigration counters.

ON ARRIVAL

1. To ensure smooth immigration clearance at KLIA and Miri Airport, you will need to produce your passport, Letter of Offer and Visa Approval Letter at the airport immigration counters.

   You will need to complete the Airport Reception Service Booking Form available at international.curtin.edu.my/the-internationaldivision/airport-reception-service/. ARS requests must be submitted 3 working days in advance.

2. If you have requested the Airport Reception Service, you will be met at Miri Airport and transported to your campus accommodation or short-term accommodation.

3. You are required to report to the Curtin Malaysia International Division Office during office hours, and will be assisted to open a bank account and make an appointment for a medical check-up.

4. The University conducts an orientation programme to assist students to settle in Miri and into the University environment. The programme includes information on enrolment procedures, study skills, campus facilities, support services, public transport, shopping and recreational activities. It is supported by specialist staff members, student associations and senior students. All new students are required to attend.

APPLICATION FOR ADMISSION

1. Please complete using BLOCK LETTERS.

2. All sections must be completed.

3. Enclose one (1) set of supporting documents with this application. All documents must be certified by recognised bodies, e.g. original issuing bodies or Commissioner of Oaths. This application will not be processed unless full documentation is attached. Supporting documents will NOT be returned.

4. This application form is the property of Curtin University, Malaysia.

5. Please state N/A (Not Applicable) for irrelevant sections.

Forward your completed application to:
Curtin University, Malaysia
CDT 250, 98009 Miri, Sarawak, Malaysia

Apply online by clicking on the ‘Apply Now’ button on our website at www.curtin.edu.my.

Keeping personal data of individuals secure is a top priority for us at Curtin Malaysia. In view of the Malaysian Personal Data Protection Act (PDPA) 2010 implemented to safeguard the usage of personal information, you have the right to know the reasons we collect and use the personal information you have provided; how we will use the personal information and whom we may share the personal information with. For details of how the University will use, disclose and protect your personal information, please refer to www.curtin.edu.my/wp-content/uploads/2017/04/pdpa.pdf
All courses at Curtin Malaysia are recognised by the Malaysian Ministry of Higher Education through the Malaysian Qualifications Agency. Curtin Malaysia is one of eight institutions granted self-accreditation status by the MQA.
